SCHOOL EVENT

Vision

We envision a future where every student becomes a bold innovator, strengthening Vietnam through their contributions and leading globally with empathy and insight. Our school will be a hub of ideas that drive Vietnam's growth and inspire solutions for the world's challenges. We redefine education by blending local cultural pride with a global mindset, preparing students to shape a sustainable, inclusive future. In our environment, students explore the world beyond.

Mission

At Tesla Education, we seek to ignite curiosity, break barriers, and empower students to think boldly, take risks, and lead the future with purpose and passion. We cultivate fearless learners who dream big, challenge conventions, and innovate to advance Vietnam's development while addressing global opportunities and challenges. We nurture future pioneers who hold fast to local traditions yet are ready to collaborate and lead in an interconnected world. Together, we create a community where creativity, collaboration, and a commitment to progress drive every learning opportunity, ensuring our students shape the future of Vietnam and the global stage.

Message from Head of School

Dear Tesla Community,

As the new captain of this beautiful ship we call TESLA, I'm honored to reflect on what has been a dynamic, purposeful, and inspiring year. From the very first day of the 2024-2025 academic year, the energy and zest from our students, parents, and staff has propelled us forward—turning each challenge into opportunity and each success into momentum.

This year, our focus extended beyond academic progress. We placed strong emphasis on social and emotional learning, nurturing the human qualities—empathy, resilience, collaboration—that AI can never replace.

As a community, we've reached significant milestones. We are on the cusp of receiving IB MYP authorization and Cambridge Assessment International Education (CAIE) accreditation, and we proudly hosted a virtual visit from the Council of International Schools (CIS). Among many highlights this year, I was especially proud to witness our students lead a school-wide sustainability project—an initiative that perfectly captured their creativity, leadership, and sense of responsibility.

As you flip through its pages, I hope you smile, reflect, and feel proud of what your children and our community have created. To our students—thank you for your spirit, your curiosity, and your courage to grow. The future is yours, and we can't wait to see where your journey takes you next.

Kim Peters
Head of School

Message from Principal - National Curriculum

Nguyen Truong Ton
Principal - National Curriculum

On behalf of the School Leadership Team, I would like to extend my heartfelt congratulations to the entire Tesla Community on a successful and proud 2024–2025 academic year.

One of the school's greatest achievements this year has been its growing recognition by the wider community, especially for its teaching and learning activities. In addition, the school's efforts in social and community service have also left a meaningful and lasting impression.

The 2025–2026 academic year will mark a new chapter as the school welcomes its first cohort of high school students. We are excited and fully prepared to welcome students both from within and outside the school to join this new level of study. With thorough preparation, significant investment, and the unwavering dedication of every member of the Tesla team, we believe our students will continue to achieve even greater success under the roof of Tesla.

Wishing the entire Tesla Community - especially our dear students - a joyful, healthy, and meaningful summer. We look forward to seeing all of you again in the 2025–2026 school year.

Le Thi Hong Son
Principal - National Curriculum

As the school year comes to a close, my heart is filled with pride and gratitude. This has been a year of growth, discovery, and joyful learning for all of our young students. Each day at our school has been a beautiful journey where curiosity blossomed, friendships were formed, and the first important steps toward lifelong learning were taken.

I want to extend my heartfelt thanks to our dedicated teachers, our supportive parents, and most of all, to our wonderful children — the heart of our school. Watching you explore, wonder, and persevere has been a daily inspiration.

As you move forward, remember: “Every great journey begins with a single step.” Never stop asking questions, never stop dreaming, and above all, never stop trying. It is through trying that we grow, learn, and build a better world.

Congratulations on a wonderful year. The future is bright because of you!

Message from Middle Years Programme Coordinator

This year has been one of remarkable transformation and growth. We've welcomed new staff, refined our curriculum, and introduced challenges that have pushed our students in ways they may never have experienced before. Through it all, they have risen to the occasion with resilience, curiosity, and determination.

It has been truly inspiring to witness their journey — watching these young individuals grow, adapt, and strive to become the best versions of themselves. Their progress has been nothing short of extraordinary, and while their journey is only just beginning, they have already come so far.

There is still a long road ahead, but I have every confidence that they will reach their goals. It has been a privilege and an honor to be part of their development this year, and I am incredibly proud of each and every one of them.

Dr. Ollie Peters
Secondary Coordinator

Message from Primary Years Programme Coordinator

The 2024–2025 school year was a challenging yet transformative journey for our PYP students, teachers, and parents. While change is never easy, the positive shifts we embraced led to clear academic progress, stronger mindsets, and more resilient learning attitudes.

I am incredibly proud of the Tesla community for staying optimistic, adaptable, and committed throughout the year. Your courage to grow through challenge has made a lasting impact.

I am confident that the foundations we built together this year will lead to meaningful outcomes and even greater success in 2025–2026.

A special thank you to Ms. Ha and Ms. Thao, whose leadership and dedication as previous PYP Coordinators laid the foundation for this year's success.

Kim Peters

Head of School

Message from Early Years Programme Coordinator

As the academic year draws to a close, I reflect with deep pride and gratitude on the remarkable growth and learning journeys of our young students. Throughout this year, our children have demonstrated resilience, curiosity, and an innate capacity for wonder-qualities that lie at the very heart of early childhood education.

At this foundational stage, every experience, interaction, and exploration builds critical pathways for lifelong learning. Our classrooms have been vibrant communities where inquiry, collaboration, and creativity flourished.

I extend my heartfelt thanks to our passionate educators, supportive families, and most importantly, our courageous young learners. Each of you has contributed to a community where children feel empowered to take risks, ask questions, and develop a genuine love of learning.

As we celebrate this year's achievements, I encourage our students to continue to approach the world with open minds and courageous hearts. In the words of Maria Montessori, "The greatest gifts we can give our children are the roots of responsibility and the wings of independence."

Congratulations to all on a truly inspiring year of growth.

ACTIVITIES

Another school year has come to a close, bringing with it countless sweet and memorable moments in the growing journey of our little angels. From the wide-eyed wonder of their first days at school to the bright smiles they share each morning when greeting their teachers and friends - all these precious memories have found a special place in the hearts of teachers, parents, and the children themselves.

This yearbook is a small keepsake, capturing those lovely memories, innocent moments, and amusing stories from the past school year. One day, the children will grow up and embark on new journeys, but these early childhood days under the roof of this preschool will forever remain a pure, warm, and loving chapter of their lives.

We dedicate these cherished moments to our beloved little sprouts of tomorrow. May you always be healthy, joyful, and keep that same sweetness and innocence you had on your very first day of school.

ACTIVITIES

Another school year has come to a close, leaving me with countless unforgettable emotions. Every day spent with my students has been filled with laughter, innocence, and purity — a journey of growth that I've been honored to witness. From the early days of shyness and hesitation, the children have gradually become more confident and independent, learning to care for themselves, to share, to love, and to support one another. Every innocent gaze, every sweet call of "Teacher!" This is a precious gift, a source of motivation that inspires me each and every day.

Over the past school year, not only have the children grown, but I too have learned so much. I've learned to be more patient, more loving, and to cherish every single moment with them. There were times of exhaustion and pressure, but just one smile from a child was enough to make all my worries melt away.

I would also like to sincerely thank all parents for their constant trust, support, and collaboration throughout the year. Your understanding and encouragement have been a great source of strength, helping me to do my job well.

The end of the school year is not just a farewell, but also the beginning of a new journey. I believe that with the seeds we've sown together, the children will continue to grow up healthy, kind, and full of love.

Wishing all of you a joyful and meaningful summer. I will always remember you and quietly cheer you on from afar!

ACTIVITIES

The 2024-2025 school year is coming to an end, and my heart is overflowing with emotions as I look at you – the little angels of Tesla's IEYP class. It feels like just yesterday we were getting to know each other: I was new to the school, and you were shy, hiding behind your parents, still unfamiliar with me. Yet now, you greet others politely, express love to your teachers and friends, share with one another, and fill our classroom with your pure, joyful singing.

I'm so happy and proud to have shared with you so many "first" lessons: your first poems recited with little voices, your very first drawings full of imagination, and those tiny but heartwarming hugs.

Thank you, my dear children, for your love and trust, and for giving me so many beautiful memories.

ACTIVITIES

As the school year comes to an end, teachers still vividly remember the curious, wide-eyed looks of the children on their very first day.

Every cherished moment — from discovery activities, joyful laughter across the schoolyard, exciting field trips, to colorful Earth Day celebrations and cultural festivals — has left a beautiful imprint in the hearts of the teachers.

Day by day, the children have grown — becoming more confident and creative. Each learning project and creative product reflects their curiosity, courage, and self-confidence, true to the spirit of the PYP philosophy.

Thank you, dear students, for weaving together such a meaningful and love-filled school year.

May you continue to stay strong, joyful, and shine brightly on your learning journey ahead!

ACTIVITIES

The 2024-2025 school year has opened an exciting new learning journey for Grade 1 students.

From little ones who could neither read nor write, they have now become proficient readers and writers. Whether exploring the world around them in class or engaging in hands-on practical experiences, each activity clearly highlights their enthusiasm and eagerness to learn.

This is precisely how Tesla nurtures genuine IB learner profile attributes, guiding our students to become knowledgeable, caring, creative thinkers who are ready to adapt and thrive as global citizens in an ever-changing world.

ACTIVITIES

In the 2024–2025 school year, Grade 2 students embarked on a rich journey of exploration through a variety of hands-on and meaningful learning experiences. From interactive games and group projects to integrated units and real-world explorations, students gradually developed their thinking, communication, and independent learning skills.

Rooted in the IB philosophy, the learning environment at Tesla encourages students to express their ideas, collaborate with peers, and solve problems in their own unique ways. Each school day offers opportunities to build positive learning habits, nurture empathy, and embrace new challenges.

At Tesla, we take pride in cultivating curious minds, caring hearts, and confident learners ready to move forward.

ACTIVITIES

A school year has passed in the blink of an eye. Just yesterday, we were meeting each other for the first time, getting to know one another, and now it's almost time to say goodbye as you all embark on the next step of your learning journey. In this third-grade year, what I hoped for the most, and what I've been constantly reminding you about, is developing a sense of self-discipline and awareness in everything you do. I wanted to help you form the habit of self-learning, independent research, and becoming more confident in sharing your ideas. The activities we did throughout the year focused on nurturing your creative thinking and teamwork skills. I am so happy and proud that, as we reach the end of this year, you've shown remarkable growth both academically and socially. This has been an amazing journey, and we look forward to even more success in the years to come!

ACTIVITIES

The 2024-2025 school year marks a meaningful milestone in the growth of our Grade 4 students. The children have not only grown physically, but also matured in their thinking — becoming more independent, empathetic, and eager to explore the world around them. Through the IB programme, they have engaged in theoretical lessons, real-life experiences, and a wide range of creative activities. Each interdisciplinary project, group activity, and sports session has helped them develop collaboration skills, critical thinking, and perseverance.

Every school day is a journey of discovering knowledge, building skills, and nurturing compassion. Through shared learning and joyful moments, the friendships among the students have blossomed — filled with laughter, care, and deep bonds. Tesla is proud to accompany them on their journey to becoming global citizens — confident, resilient, and full of love in an ever-changing world.

ACTIVITIES

This past year has really shown what splendid progress you've made, not just with your brains, but with getting stuck in and taking charge of your learning. I am ever so proud of how Grade 5 has been exploring knowledge using all sorts of modern methods, especially that rather clever "Flipped Classroom". You've all been so confident in having a good old dig around for information, sharing what you've found, and turning each lesson into a jolly good voyage of discovery. Those useful field trips we went on really opened your eyes and helped you see how what we learn in class fits into the real world. I'll always remember the sweet sound of the Recorder in music, the happy splashing about during swimming, and those energetic T-ball matches. All those different things you've been doing have really helped you grow as well-rounded individuals, looking after your minds and bodies and getting those creative juices flowing. As you move on to the next stage, I reckon that the skills you've learned in taking the lead with your studies, along with all your varied experiences, will be a proper study toolkit for you. Do keep that love of learning burning bright and keep on exploring the wonders of the world! I'll be keeping my eye on you and am incredibly proud of you all. Best of luck for the future!

Pham Thi Hai Thao

PYP EXHIBITION A LAUNCH INTO MYP SCIENCE

The PYP Grade 5 Science Exhibition marks a milestone in students' transition to MYP Grade 6, showcasing their readiness for advanced scientific thinking. This project demonstrates how students move beyond theory, applying scientific concepts like forces and buoyancy to real-world challenges. The highlight is a student-designed boat, fitted with a motor, where students engaged in hands-on soldering activities to bring their ideas to life. This project reflects critical thinking, creativity, and social awareness. Students connected science with social studies, exploring how their creation can serve communities by cleaning waterways and reducing ocean pollution. Science meets purpose in action.

Mohammed, Sameer Hussain
PYP UOI Teacher

PYP ASA CLUBS

After-school extracurricular activities are highly anticipated by students. Through various clubs, students not only discover and nurture their personal interests and passions but also develop holistically in alignment with the IB approach.

These activities foster essential skills such as collaboration, critical thinking, respect for diversity, and a willingness to take risks.

They also serve as a platform to cultivate IB learner profile attributes such as inquirers, caring individuals, and responsible global citizens—key qualities that prepare students to thrive in an ever-changing world.

Truong Thi Thu Ha

Grade 1 Homeroom Teacher

GRADE 5 GRADUATION

Reflection on Teaching Grade 5

Teaching Grade 5 Science, Social Studies, and English Language Arts this academic year has been both a deeply rewarding and challenging journey. Pushing every single student to grow—academically, emotionally, and socially—was not easy. There were moments when the effort felt overwhelming, for both them and myself. But through it all, we held onto each other. We encouraged, supported, and pushed forward together.

These students are ones I will never forget—not only for their resilience but for their remarkable attitude of never giving up. I’ve watched them show kindness, share selflessly, and even sacrifice for the sake of their classmates. Each student has a unique quality, something special that I truly hope they guard closely and continue to develop.

I am both eager and excited to see how much they will achieve as they continue their journey into the MYP. I believe in them deeply and will always cheer them on.

Mohammed, Sameer Hussain

PYP UOI Teacher

Student Comments:

The past academic year has been amazing. Every class I spent with my teachers has been a learning experience. I am very happy to have studied under the guidance of some great teachers. Everyday has been a learning experience to improve myself every day. I know now that when in everything I do I must always keep trying and never give up. Mr. Mo has developed my passion to come to school and keep learning and improving every day.

- Nguyen Minh Nghia -

In my journey of learning, I have improved a lot. I’ve had great teachers whose excellent teaching and support have helped me grow and pushed me to reach my full potential. They’ve helped me become better at the things I once struggled with, and I’m very thankful for all the care they’ve given me. I’m truly grateful for each one of them. Their impact will stay with me for the rest of my life. I’m especially grateful to Mr. Mo, who helped me with my English grammar and has guided me every step and built my thinking.

- Huynh Minh Triet -

When I started grade 5, I felt very challenged, but I still tried to study, to keep up with my friends. My teachers and friends have always helped and supported me to study and do better. I will always remember every one of them. I have also in my journey through grade 5 learnt to be more respectful to others.

- Le Minh Long -

GRADE 5 GRADUATION

At first, I felt bored in class but then I didn't feel bored anymore because at the start I didn't know anything but after studying for a long time and listening to the teaching I knew more about the lessons and I wasn't bored anymore.

- Vo Hoang Gia Huan -

My journey from Grade 1 to Grade 5 has been full of different emotions. Sometimes it was fun and exciting, but other times I felt bored and tired of learning. Each year brought a new feeling. In some grades, I felt happy and enjoyed school a lot, while in others, I just wanted the year to end. Now that I am in Grade 5, I feel more grown-up and responsible. Grade 5 has been a little harder, but also more fun because I have learned so many new things and made more memories with my friends. Even though there were tough times, my journey through these years has helped me grow and prepare for the next big steps ahead.

- Tran Ngoc Bao Chau -

Grade 1 began with a successful opening ceremony. The years leading up to grade 5 were fun and exciting. However, in grade 5, everything changed for the better. Our way of learning changed and I progressed significantly. With some teachers from the best schools in the country now teaching me, the worksheets became very hard, but I have managed to grow every day and try harder. I will continue to try everyday even in the future.

- Vo Quoc Minh Dang -

In Grade 1, everything I learned was easy, but as I learned more, it became more difficult. When I moved to a higher grade, I became more curious. In Grade 5, I think I have improved a lot. My English went from Level 1 in Grade 1 to Level 5 in Grade 5. The most important thing I have understood through my journey in PYP is "effort". I am hard-working now because I realize that it is not an easy path for me to get into my dream school. So, I will try harder and improve every day. Also, the efforts of my teachers are essential in guiding me. Great teachers like Mr. Brandon, Mr. Jason, and Mr. Mo have given me plenty of knowledge and support, making me capable. This way my future learning journey will be easier.

This 2024-2025 school year, MYP 3 Mathematics students actively engaged as thinkers and inquirers through hands-on activities and real-world problem solving. With the support of their teacher and interactive tools like Desmos, they explored math concepts from basic to challenging levels.

Students worked collaboratively, asked meaningful questions, and developed deeper understanding through guided inquiry. The use of digital platforms allowed them to visualize and test ideas independently.

This year showed remarkable growth as students confidently kept up with the lesson pace, showed resilience in solving problems, and demonstrated a stronger grasp of mathematical thinking and communication.

OPENING CEREMONY

On the morning of August 14th, Tesla Education joyfully celebrated the start of the 2024-2025 school year in an atmosphere filled with warmth and respect. This year's ceremony not only marked the beginning of a new chapter but also served as a moment for the Tesla community to reflect on past achievements and embrace the challenges that lie ahead. Following the Opening Ceremony, the Orientation for the 2024-2025 school year was held, offering crucial information to help students and parents gain a clearer understanding of what the new academic year will entail. This occasion allowed parents to meet the dedicated teaching staff, who will not only impart knowledge but also accompany the students on every step of their educational journey.

The school extends its deepest appreciation to parents, teachers, and all staff members who have shown unwavering dedication and support, making this new school year a meaningful and exciting start.

SWIMMING CARNIVAL

Igniting Passion, Radiating Sports Spirit!

The Swimming Carnival 2024 at Tesla Education has "exploded" with an unforgettable vibrant atmosphere, attracting enthusiastic participation from both elementary and middle school students. Young athletes showcased their talents in freestyle, breaststroke, and backstroke events, competing over distances of 25 to 50 meters. The thrilling sprints and euphoric moments captivated the audience!

Beyond the challenging races, the schoolyard buzzed with life, featuring colorful game booths, artistic activities, and a diverse food scene, creating a joyful festival atmosphere that united all community members.

As the event came to a close, the sound of cheers blended with the joy and pride felt when prestigious medals were awarded to outstanding individuals. However, the most valuable takeaway from the Swimming Carnival was not merely the achievements but the ignited passion, competitive spirit, and vibrant sportsmanship blossoming in every Tesla students!

BOOK WEEK

Book a Heartfelt Journey

Falling into the loving atmosphere of February, Tesla's Book Week was a celebration of stories, imagination, and empathy under the theme "Book a Heartfelt Journey." Throughout the week, Tesla students eagerly joined joyful storytelling sessions with Dr. Ollie, reading challenges with e-books and library books, creative writing, designing books and a thrilling book scavenger hunt. Hallways transformed into book worlds through colorful door displays, handmade bookmarks, and artistic posters. The highlight was the book character fashion show—where Tesla learners brought literature to life. These activities did not just promote reading—they nurtured creativity, encouraged self-expression, and embodied Tesla's values of curiosity, connection, and lifelong learning.

MID-AUTUMN FESTIVAL

September 17, 2024

This year's Mid-Autumn Festival at Tesla was joyful and heartwarming, bringing the students memorable and meaningful moments. More than just a time for fun, the festival also offered the students a deeper understanding of Vietnamese cultural traditions, inspiring pride and love for the nation's values. Every activity at the festival, from vibrant musical performances to a variety of traditional folk games, recreated an authentic Mid-Autumn atmosphere, evoking a sense of warmth and familiarity reminiscent of past celebrations.

Each activity provided learning opportunities and served as a way for students to bond with one another, fostering a spirit of sharing and unity. It was a time for them to create precious memories together, nurture teamwork, and cherish the moments spent side by side, making the festival all the more special and unforgettable.

HALLOWEEN

IMMERSING IN THE MYSTERIOUS ATMOSPHERE OF THE HALLOWEEN FESTIVAL AT TESLA

On October 31, 2024, Tesla School hosted a fun and surprising Halloween festival, bringing memorable moments to students across EYP, PYP, and MYP levels.

From the start, the school buzzed with unique costumes – from superheroes, princesses, witches to spooky characters. Each costume reflected the students' creativity, turning the space into a lively, colorful celebration. The festival's highlight was the haunted house, where students courageously entered to experience a mix of excitement and fear. The eerie ambiance amplified the thrill in the air. The fashion show, a signature Halloween event, had students proudly strut their stuff, showcasing their fantastic costumes. The cheerful smiles and quirky performances made the atmosphere even more engaging.

The Halloween festival at Tesla was more than just a day of fun, it was a true celebration of the Halloween spirit, filled with joy and creativity.

WINTER CONCERT

This year's Winter Concert was a joyful and memorable celebration, marking the first time Tesla hosted the event in an indoor venue. The cozy atmosphere allowed families to fully enjoy a diverse showcase of performances, highlighting winter traditions from around the world. From Hanukkah and Diwali songs to festive classics like Feliz Navidad and Jingle Bells, students embraced the spirit of the season through music, dance, and drama. Each performance reflected creativity, cultural appreciation, and teamwork. Congratulations to all students and teachers involved—your dedication brought warmth and joy to our school community. We can't wait for next year!

TET FAIR

Tet Fair 2025 at Tesla Education is not just a New Year celebration, but also a vibrant space where the community comes together to embrace traditional cultural values. From the flavors of Tet, folk games to performing arts, every element will weave a colorful and meaningful tapestry of spring.

A special highlight of this year's spring festival is the water puppet performance by the Rong Phuong Nam artisan troupe. This is a wonderful opportunity for students and their families to enjoy a unique form of Vietnamese folk art, where traditional stories are vividly and colorfully brought to life.

More than just a New Year event, Tet Fair 2025 is a heartfelt journey back to traditional values, allowing everyone to fully immerse themselves in the festive spirit of Tet.

STEM WEEK

Last May 23, our students showcased their creativity and curiosity at the STEM Week! From eco-friendly inventions to ICT Coding, their projects reflected the IB learner profile—thinkers, risk-takers, and inquirers. More than just experiments, these hands-on explorations taught them to solve real-world problems with innovation and teamwork. Seeing their eyes light up while explaining their work reminded us that learning isn't just about grades—it's about growing as resilient, compassionate problem-solvers. Every prototype, every "Aha!" moment proved that the future is bright in their hands. Proud doesn't even begin to cover it!

Dear my beloved Student Council Members,

As the year comes to an end, I want to take a moment to sincerely thank each of you for your incredible hard work, dedication, and leadership throughout the year. Being part of the Student Council is never easy - it requires commitment, responsibility, and the courage to step up when others may hesitate. And each one of you did just that. You did not just take on tasks - you owned them. Whether it was organizing exciting school events like our unforgettable Halloween celebration or planning meaningful charity events, your ideas and actions brought joy and unity to our school community. You created moments that will stay with us for a long time. What stood out most was your willingness to represent your classmates, speak up on their behalf, and do your best to make our school a better place. You led not for recognition, but because you truly cared. It has been a wonderful year filled with creativity, teamwork, and growth. I am so proud of all you have accomplished, and I know that even greater things are ahead. Thank you for your efforts, and let's keep the spirit of leadership and service going strong as we look forward to an even better year ahead.

With a lot of love and appreciation,

Mr. Dang

As the 2024-25 academic year concludes, Tesla celebrates a year of progress and purpose. We welcomed a CIS virtual visit and submitted our final MYP authorisation report. The year began with Service as Action by MYP students supporting Typhoon Yagi victims. Through MAP testing, all students were measured against international standards in English and Math. Our students excelled in math, English, badminton, and swimming, showing talent and determination. We are proud of the creativity, independence, and critical thinking our learners continue to develop. With our 10th anniversary ahead, we look forward to even greater achievements in 2025-2026!
